THE SOUTH DESERVES A STAGE.

You know what they say: Life is a party, you just have to hang up the bunting yourself! And that is what we do. We hang them in all colours and sizes, for whoever comes and uses the stage. We adapt. We unpack. We'll wrap you up and wrap up the moment. From carnival to festival, from headbanger to dinner show. We create the opportunity to let you have the best time. And that deserves a stage.

This combines perfectly with the concrete look floor. Because of the standard facilities, only the stage and the technology have to be brought in.

LIMITLESS POSSIBILITIES

The mobile telescopic stand and a modern floor system make the room layout flexible. From theatre to concert to event and congress. The height of 17 meters under the roof and the new trusses provide almost unlimited rigging possibilities.
